

## **DME User Update – 21<sup>st</sup> February 2017**

### **Important Reminder re. DME Availability and MedCo Practising Addresses**

Dear User,

As a Direct Medical Expert registered with MedCo, we would like to draw your attention to:

- 1. Practising addresses:**

Practising addresses must be a true reflection of where you are prepared to see a single claimant and must be an appropriate location where you can provide a consultation.

- 2. Notifying MedCo of periods when you are not available for consultations:**

If you are aware that you are going to be unavailable to provide consultations for a period of time for reasons such as extended absence or annual leave, we remind you that within your registration details in MedCo you are able to set yourself as 'inactive'. This will allow you to withdraw temporarily from the search and selection process.

Should you have any questions please email: [enquiries@medco.org.uk](mailto:enquiries@medco.org.uk)
