MedCo Identifies and Suspends Further Shell Companies

Dear Users

MedCo is contacting you to inform you that it has identified and suspended a further 21 'shell' companies from the MedCo system for failing to meet the [Revised Qualifying Criteria](#) published by the MoJ on 25th October 2016. The MRO organisations concerned have been contacted and notified.

The suspended MROs will be permitted to complete existing instructions to avoid impact on Authorised Users [AUTs] who have prior selected them from a MedCo search offer. The suspended MROs will no longer be presented in MedCo search offers.

This latest enforcement action follows the removal of 134 'shell' companies in November 2016.

For further information please contact enquiries@medco.org.uk
